

Enjoy the ride!

Wonderlearn aims not only to provide the best exam preparation for your child, but a safe space for their confidence and passion for reading and writing to flourish.

Lessons are designed to be engaging, meaningful and inspiring so your child becomes a curious, motivated and independent learner.

Please do not underestimate though, the power of parental support— Wonderlearn’s benefits can only be activated when the ‘magic triangle’ of tutors, parents and students all work together, taking the time to create effective working habits and routines.

As the saying goes— you reap what you sow! I look forward to working with you.

Communication

All enquiries and information should be sent via email.

Please do not send a text or WhatsApp message unless it is about an upcoming lesson or is of an urgent nature.

When recommending Wonderlearn, please share the email address only.

We aim to answer your emails within a week, or 48 hours if it is marked as urgent.

Homework sent via email should be scanned as a single file pdf document. It will be marked and sent back within a week in term time but may take longer in the holidays.

ENGLISH TUITION

Enjoy and Excel!

The World of Wonderlearn!

Welcome to a journey of learning and discovery with Wonderlearn!

Here you will find important information regarding your child's tutoring. However, you will discover more at www.wonderlearn.co.uk.

Wonderlearn provides group tuition for the years 3-11.

Its aim is to prepare your child successfully for the 11+ and GCSE English exams.

Group sizes average between 12-18.

Face to face classes are larger than online tuition, but are supported by trained and qualified assistants. All classes are led by Charlotte Watson (BEd Cantab Hons. MTA, MCCT)

We offer 30 weeks of tuition a year in 3 x 10 week terms. Extra courses are available for years 4 and 5 in some holidays. A reading club is in the pipeline...

Provision Years 3-6

Wonderlearn has created a special curriculum for every year group.

In years 3-6, this curriculum is based on the requirements of the 11+ Sutton (and surrounding areas) Selective Eligibility Test, second stage writing test and independent school 11+ tests.

All areas of the English curriculum are covered including: writing, comprehension, spelling, grammar, vocabulary and grammar.

Every year, the curriculum is evaluated and updated in line with the most recent test requirements.

At the end of each term, an assessment is carried out.

Each week, your child will work through a booklet covering all elements of English. Specific skills are taught in class that they must apply and practise for homework. Online students must print the booklet at home.

Answers are given for you and your child to work through, evaluate and correct mistakes.

Marked booklets are then submitted so that the writing can be evaluated with feedback given.

It is important for your child to respond to all feedback and learn from their mistakes. Guidance is offered where understanding is still not clear.

Provision years 7-11

In years 7-8, the focus is on providing a strong foundation of skills, ready for the challenges of the GCSE English exams. A curriculum has been created to refine analysis and writing skills while also developing subject knowledge and terminology. A balance of comprehension and creative writing tasks is provided.

In years 9-10, the focus is on the requirements of the specific questions in the AQA and Edexcel English Language exams (other exam boards can be accommodated). Some aspects of essay writing skills for literature are also covered, mainly poetry.

In year 11, we focus on revising all the skills taught in years 9 and 10 as well as providing timed essay practice.

In all year groups, students can ask for personal guidance each week on an area they are covering
